Legacy Volleyball Club is a non-profit youth empowerment organization established to promote the sport of Volleyball to young athletes. We provide year-round Volleyball training and youth programs, which help youth achieve their athletic, social and academic goals.

Every year we offer various programs in underserved communities exposing youth to new experiences, including national travel, competitive play and collegiate exposure.

During the school year, LVC participants compete in club play in association with USA Volleyball. At the conclusion of the club Volleyball season, youth will be invited to continue their Volleyball education by participating in weekly club matches and activities.

It is our belief that LVC youth will have the confidence to pursue higher education and succeed at the collegiate Volleyball level.
